CAUTION: PLEASE FOLLOW THIS INSTRUCTION MANUAL CAREFULLY TO PREVENT ANY INJURIES OR COMPLICATIONS THAT MAY ARISE.

WARNING: Before installing or maintaining the luminary, make sure all powers are **TURNED OFF**.

Verify that supply voltage is correct by comparing it with the label information on all fixtures.

Make all connections in accordance with the NEC requirements, and make sure all luminaries are properly secured to prevent any wire complications. This luminary is to always be installed with the lens facing down and its not to exceed the maximum ambient temperature rating noted on the specification sheet.

Step 1- The FLHA luminaires are made in various sizes. It is important to make sure that the wire guard is the corresponding size based on the luminaire chosen.

Step 2- Use the four [4] formed tabs to fasten the wire guard onto the light fixture. This is done by using the 4 holes located on the side parts of the luminaire.

Step 3- The FLHA luminaire is now ready to be safely mounted onto the various types of mounting methods and ready for wiring installation.
