XHB Series LED High Bay Installation Sheet

The XHB LED luminaire comes with an XHB Base, available optional Hook and Conduit mounts, and M4 screws to secure them. Below are examples of these features and the wiring for the XHB LED luminaire.

Includes: XHB150, XHB200
CAUTION: PLEASE FOLLOW THIS INSTRUCTION
MANUAL CAREFULLY TO PREVENT ANY INJURIES
OR COMPLICATIONS THAT MAY ARISE.
WARNING: Before installing or maintaining the
luminary, make sure all powers are TURNED OFF.
Verify that supply voltage is correct by comparing it

WARNING: Before installing or maintaining the luminary, make sure all powers are TURNED OFF. Verify that supply voltage is correct by comparing it with the label information on all fixtures. Make all connections in accordance with the NEC requirements, and make sure all luminaries are properly secured to prevent any wire complications. This luminaire is to always be installed with the lens facing down and its not to exceed the maximum ambient temperature rating noted on the specification sheet.

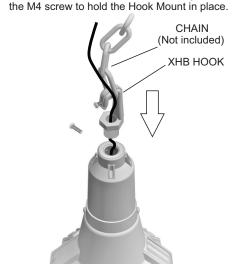

(A) RETROFIT

WARNING: IF FOR RETROFIT
BEFORE INSTALLATION
REMOVE BALLAST
AND/OR STARTER IF THEY EXIST IN YOUR
SYSTEM OR LIGHTING FIXTURE,
DIRECT CONNECT TO AC POWER
CHECK VOLTAGE BEFORE CONNECT

The XHB LED Light Bulb is able to retrofit many different fixtures to replace traditional MH/CFL bulbs. This bulb has an E39 MOGUL BASE. The XHB BASE must be removed from the XHB Luminaire. Remove the [2] M4 screws to remove the XHB BASE from the XHB Luminaire. Once the XHB BASE is removed, you are now able to install (screw in) the E39 Bulb into the socket. After the XHB BASE is removed, one is able to discard the XHB BASE.

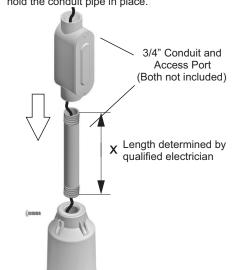

(B) HOOK MOUNT

The XHB LED luminaire has an optional Hook Mount which can be used to hang the fixture to a desired height. The Hook mount can be added to install into a Chain Link or an Eye Hook (Both not included). Loosen the M4 screw from the XHB Base to install (screw in) the Hook Mount into the XHB Base. Tighten the M4 screw to hold the Hook Mount in place.

(C) CONDUIT MOUNT

The XHB LED luminaire has an optional Conduit Mount and Access Port (Both not included) which can be attached to an existing conduit pipe. Loosen the M4 screw from the XHB Base to install (screw in) the 3/4" Conduit into the XHB Base. Tighten the M4 screw to hold the conduit pipe in place.

The XHB luminaire has 3 wires at the top of the XHB Base for Power, Ground and Neutral. It also has 2 wires at the side for the optional 0-10V dim device to be attached.
