

The NEXT Generation of LED RETROFIT IS HERE

BETTER DISTRIBUTION, MORE EFFICIENT

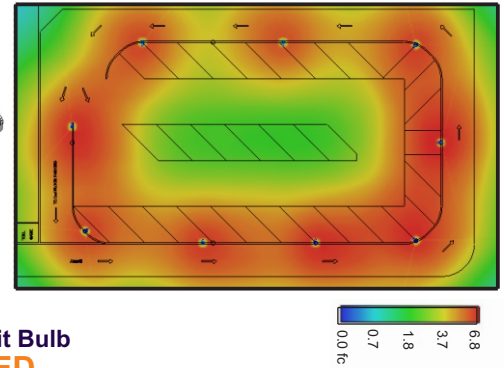

Traditional Retrofit Kit
150W LED

Parking Lot LED Retrofit Simulation

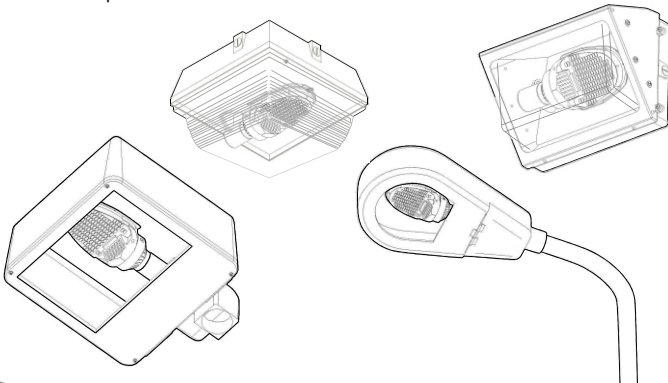

BH115 Retrofit Bulb
115W LED

BH Series Bulb lumen output and efficiency is envisioned to take on the future of luminaires. Compared to Traditional LED Retrofit Kits, the BH Series will save the customer energy while giving off a more consistent lighting distribution than ever before.

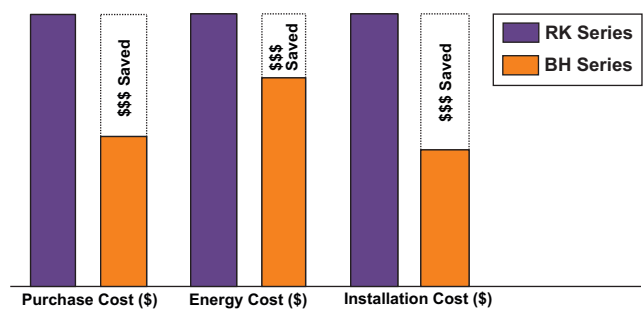

EASIER INSTALLATION

BH Series bulb's sleek, compact design makes for a quick and easy installation process. This bulb allows for multiple application options for retrofitting and with an installation process that will take the electrician a fraction of the time compared to the traditional LED Retrofit Kit.

MORE SAVINGS

BH Series Bulb will benefit the customer with time and money. Here is a graph comparing ratios between the RK Series traditional LED Retrofit Kit with the New BH Series Retrofit Kit.
